DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 8-12 have been cancelled.

These claims were withdrawn, since they were not elected (with traverse to the election of Group I). Since the traversal did not specifically point out any errors to the restriction, it has been treated as an election **WITHOUT** traverse.

Allowable Subject Matter

Claims 3-7 and 13-16 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest an optical coupling system with a first lens having a first curved surface and a second lens having a second curved surface

Art Unit: 2873

where the first and second lenses are bonded together with the first and second curved surfaces opposite to each other, the first and second lenses each having a flat rear surface and the first and second curved surface are on respective front surfaces, and where the first and second curved front surfaces each include at least one groove and a flat bonding surface surrounding the groove, where the groove is formed with a lens surface projected from a bottom surface of the groove.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
